key features and benefits

<i>Center mount cantilevered shelf</i>	Includes front and rear shelf to mount on standard 3" channel racks
<i>Heavy load rating</i>	Support non-rack mountable equipment up to 250 lbs.
<i>Adjustable shelf</i>	Shelf mounting brackets attach to front and back of 3" or 6" channel racks. Shelf can then be positioned to desired location using a range of mounting holes in the shelf; two positions are available for 3" channel racks and three positions are available for 6" channel racks

applications

The Panduit line of shelves provide an aesthetically pleasing solution that allow you to mount test gear, computer equipment, and small networking devices on any EIA 19" rack or 23" rack with PEB1 or PEB2 extender brackets. This enables you to design a network layout to your own specifications.

When used with Panduit racks, enclosures, cable managers, and connectivity, the user receives a complete networking solution that will satisfy telecommunications room requirements today and into the future.
