

Platoshear Heavy Duty Cutter

1755

Plato shears have a thin profile designed for those hard-to-reach areas in electronic assembly. Assemblers love the effortless shearing action, comfort, light weight, and safety for electronics lead and wire cutting. Platoshears use the shear cutting method, which requires 50% less operator effort and extends cutting life because they shear rather than pinch. Handles are cushioned for day long comfort, and automatically spring back to their original position after each use.

Heavy-duty shear cutter for heavier gauge wire and cable

Cuts round and flat cable, co-ax, nickel, Kovar, and other wire with a clean shearing cut that reduces cable cut-end distortion. Lightweight design, only 2.5 ounces (71g), significantly reduces operator fatigue.

- For heavy gauge wire
- Cushioned rubber handles
- Spring-back action
